<https://github.com/rhodesmt>

<https://rhodesmt-portfolio.herokuapp.com/>

Experienced software developer skilled in both frontend and backend design using Ruby and JavaScript. Demonstrated ability to quickly and effectively learn complex topics and skills, honed through my experience as a submarine sonar technician in the Navy where I was responsible for identifying, classifying, and tracking various types of ships through sound. Seeking a software development role at a company with a strong mentorship culture and an innovative approach to problem-solving.

Skills

B2B | Compliance | Quality Assurance | Security | Software Development | Project Management | UI/UX Design | Database Management | People Management | Customer Relationship Management |

Tech Stack

Git | Github | JavaScript (ES6) | PostgreSQL | JSON | Ruby | Rspec | Ruby on Rails | Rails | React | HTML/CSS | APIs | Node.js | Devise | Jest | NoSQL | React Native | AngularJS | PHP |

Experience

Victorise / Software Developer Intern

December 2022 - Present, SAN DIEGO, CA

- Developed, tested and implemented features for web and mobile apps in an Agile environment, utilizing daily SCRUM meetings.
- Mastered AngularJS, PHP, React Native and NoSQL, specifically MongoDB, and currently learning Python3.
- Effectively increased the speed, accuracy, and scalability of web and mobile application databases, and improved customer and user experience.

LEARN Academy / Software Developer Student

SEPTEMBER 2022 - JANUARY 2022, SAN DIEGO, CA

- Completed 480+ hours of direct coding experience in an intensive full stack software development bootcamp.
- Gained proficiency in building JavaScript, Ruby, and React applications with UI/UX components
- Practiced test-driven development to produce full-stack Ruby on Rails applications with associated Relational Databases, utilizing RESTful APIs.

Carbon Health Technologies, Inc. / B2B Support Specialist

AUGUST 2021 - JUNE 2022, SAN DIEGO, CA

- Engaged in B2B communications and customer relationship management providing support and tracking for COVID-19 cases for partnered employers.
- Operated in accordance with Federal and State HIPAA and PII Compliance laws and regulations

US Navy / Sonar Technician Submarines, Third Class

MAY 2013 - MAY 2018, PEARL HARBOR, HI

- Commissioning crew member of the USS Illinois, responsible for the installation, operation, and maintenance of advanced sonar systems and equipment.
- Assisted in the development and implementation of new procedures and protocols for the operation and maintenance of sonar systems.
- Demonstrated a high level of technical expertise and attention to detail, resulting in the successful commissioning of the USS Illinois and its subsequent deployment.

Education

Santiago Canyon College / Orange County EMT/ National Registry
EMT

AUGUST 2019 - DECEMBER 2019, SANTA ANA, CA

- Completed coursework: Intro to Computer Science (C#), Trigonometry/Pre-Calculus, Emergency Medical Technician Certification
